MISSION & VISION

CORPORATE HISTORY

QUALITY,
RELIABILITY,
DELIVERY.

Established in Sarawak in 1968, Nam Cheong Dockyard Sdn. Bhd. is one of the leading Offshore Support Vessel (OSV) shipbuilders with a strong reputation in Malaysia and the Southeast Asian region as a builder of quality vessels.

With over four decades of excellence and experience in shipbuilding and repairs of steel hull vessels, Nam Cheong today owns and operates one of the largest shipbuilding yards in Malaysia, with a focus on constructing sophisticated, environmentally friendly and advanced OSVs.

Having built a strong track record of ensuring high levels of customer satisfaction, we pride ourselves on our capability to always deliver built-to-order ships, as well as a built-to-stock fleet to our clients on time.

Today, the name Nam Cheong is synonymous with visionary shipbuilding excellence – with our international customer base in Malaysia, Singapore, Indonesia, Vietnam, The PRC, The Netherlands, India, Tunisia, USA and The Middle East. Guided by our motto of "Quality, Reliability, Delivery", we will forge ahead to continue engineering nautical success for Malaysia and the world.

ENGINEERING CAPABILITY

PRECISION, SPEED, EFFICIENCY.

Spanning an impressive 12 hectares with five 200m-deep waterfront facilities, the Nam Cheong Miri yard at Kuala Baram, Malaysia is capable of delivering up to 12 vessels per annum.

Equipped with advanced plasma-cutting machineries, crane capacities of up to 250 tonnes, and cutting-edge machinery & fabrication workshops – productivity, precision, speed and efficiency is a guarantee at Nam Cheong.

Along with access to production capacity from our Chinese partner shipyards to date, we are more than able to swiftly build and repair the following vessels:

- Safety & Standby Vessels
- Landing Crafts
- Accommodation/Work Vessels
- Platform Supply Vessels (PSV)
- Accommodation Work Barges with Heavy Lift Deck Crane
- Anchor Handling/Offshore Handle Support Vessels
- Multi-Purpose Offshore Support Vessels

VISIONARY APPROACH

VISION, INTUITION, DOMINATION.

With more than 20 years of building OSVs under our belt, our in-depth understanding of the OSV market allows us to strategically envision and select the most appropriate vessels to build for our potential customers.

We capitalise upon our expertise in identifying in-demand vessels accurately to build a series of built-to-stock vessels ahead of time – delivering suitable vessels in a timely manner and saving invaluable time for our clients.

DELIVERY COMMITMENT

EXPERIENCE, SOLIDITY, SUSTAINABILITY.

The key to our visionary success lies behind our progressive management team, who form the solid backbone of Nam Cheong with their years of experience in the shipbuilding and OSV industry.

Meanwhile, our strategic focus on specific vessel types has allowed us to achieve cost and operational efficiencies, while our established relationships with a myriad of suppliers ensure on-time deliveries.

Together with our low employee turnover rate, which ensures that developed skills and expertise are retained and continuously refined – all these form our cohesive approach to success.

It is no surprise that at Nam Cheong, we are able to assure delivery of satisfaction to our clients. Indeed, at Nam Cheong it is not just a guarantee of quality – it is a fact.
